Education

Otago Polytechnic, Auckland International Campus **Oct 2023 – Sep 2026**
Bachelor of Information Technology *Auckland, New Zealand*

Experience

Woolworths New Zealand **Dec 2023 – Present**
Customer Service and Checkout Operator *Mt Eden, Auckland*

- Process customer transactions accurately and resolve queries and concerns at the checkout.
- Support smooth daily store operations in a fast-paced environment as part of a team.
- Take on additional responsibilities when assigned, strengthening communication and teamwork skills.

Projects

AI-Powered CVE Vulnerability Prioritizer | *FastAPI, PostgreSQL, AWS EC2, Jira* **Github**

- Developed a FastAPI web application (capstone, team of two) that ranks CVEs using CVSS, CISA KEV status, asset criticality and user-adjustable weight sliders, with multi-tenant organisations, a risk heatmap dashboard and CVE comparison.
- Integrated Jira and Slack and added AI-generated remediation scripts; delivered in Jira-tracked sprints.
- Implemented SQLite for development and PostgreSQL (Supabase) for production; deployed on AWS EC2 with nginx and systemd.

RepoDocs | *Python, FastAPI, Groq API, AWS EC2* **Github**

- Built a Python CLI and FastAPI web app that scans a GitHub repository, summarises its files with the Groq API and generates a README.
- Designed a bring-your-own-API-key flow so keys are never stored server-side; deployed on AWS EC2.

Cardio Monitor | *Flask, MongoDB, scikit-learn, AWS EC2* **Github**

- Rebuilt and modernised an open-source heart disease prediction web app, retraining the scikit-learn model and updating dependencies; deployed on AWS EC2.

Yapho **yapho.live**

- Built and launched a random video chat platform.

Technical Skills

Programming Languages: Python, Java, JavaScript, TypeScript, SQL, HTML, CSS
Frameworks: FastAPI, Flask, Spring Boot, React, JavaFX
Databases: PostgreSQL (Supabase), MySQL, MongoDB, SQLite, Firebase
Cloud and DevOps: AWS EC2, nginx, systemd, Docker, GitHub Actions (CI/CD), Azure (learning)
Data and AI: scikit-learn, Power BI, Excel, LLM APIs (Groq)
Development Tools: Git, GitHub, Jira, VS Code, IntelliJ IDEA
Relevant Coursework: Software Development, Networking, Data Science, AI, Automation and Robotics

Certifications

- IBM: Machine Learning with Python
- Google: Data Foundations
- Meta: Coding Interview Preparation
- Microsoft: Generative AI and Data Analysis
- Deloitte: Data Analytics and Cyber Job Simulation
- OneRoadmap: Data Analyst
- Java Programming Certification (Udemy/Coursera); Git and GitHub Essentials (LinkedIn Learning)
